

AHMED CHOWDHURY

Hamtramck, MI 48212 • 3134556138 • ahmedssofa@gmail.com

Professional Summary

Professional software developer with strong background in coding, debugging, and software design. Adept at collaborating within teams to deliver high-quality software solutions that meet evolving project needs. Skilled in various programming languages and frameworks, with focus on achieving impactful results and fostering reliable, adaptable work environment. Known for problem-solving abilities, effective communication, and results-driven approach to software development.

Websites, Portfolios, Profiles

- <https://www.linkedin.com/in/ahmed-s-chowdhury>
- <https://inksway.com/ahmedchowdhury>

Skills

- Object-Oriented Programming
- Software life cycle
- NoSQL Databases
- Continuous integration
- Microservices Architecture
- RESTful APIs
- IT Troubleshooting
- Technical Support
- Java, Python, Node.js, React.
- JIRA
- SQL Databases
- Continuous deployment
- API Integration
- Git
- Software configuration

Projects

- ATM SIMULATOR, Developed a fully functional ATM simulation application with secure authentication and user-friendly interfaces., Managed account balances and transaction records with Java and SQL integration.
- NETFLIX CLONE, User authentication and authorization with JWT, Dynamic content delivery with React and Redux, Seamless integration of RESTful APIs for video streaming, MongoDB for managing user data and content, Responsive UI/UX for an immersive user experience.

Work History

Area Manager (L4), 06/2024 to Current

Amazon – Detroit

- Direct 160 associates, optimizing operational efficiency through strategic task assignments
- Enhance 10% dispatch and delivery rates via data-driven analysis and strategy implementation
- Assessed reports to evaluate performance, develop targeted improvements, and implement changes.

Full Stack Developer, 01/2024 to Current

Perksway – Detroit

- Developed a user authentication system and managed page routing for a classroom reward platform used by students to earn and redeem rewards (e.g., skip classes, cheat sheets)
- Utilized full-stack development skills to enhance user experience and streamline platform functionality
- Integrated third-party APIs to enhance functionality and improve overall user experience on web platforms.

Data Science Intern, 05/2023 to 08/2023

Ford Motor Company – Dearborn

- Visualized data in Jupiter Notebook, aiding strategic decisions with Looker Studio dashboards.
- Developed Python models for battery health, improving vehicle performance and longevity. Enhanced decision-making through data visualization and predictive analytics.
- Utilized programming languages such as Python or R extensively throughout the internship, applying relevant libraries and frameworks when appropriate.
- Applied appropriate data science techniques to solve business problems.

Education

Bachelor of Science: Information Technology, Expected in 12/2024

Wayne State University - Detroit, MI

- Dean's List
- GPA: 3.92/4.00
- Dean's List [2021,2022,2023,2024]
